ELSEVIER

Comput. Methods Appl. Mech. Engrg. 150 (1997) 433–434

Computer methods in applied mechanics and engineering

Contents Volume 150

Volume 150, Nos. 1–4, December 1997

Recent progress in multiblock hybrid structured and unstructured mesh generation
C.-Y. Huang 1

On application of differential geometry to computational mechanics
N. Lautersztajn-S and A. Samuelsson 25

Geometry representation issues associated with *p*-version finite element computations
S. Dey, M.S. Shephard and J.E. Flaherty 39

Adjacency for grid generation and grid adaptation in Delaunay triangulation
Y.J. Song 57

Aspects of an adaptive *hp*-finite element method: Adaptive strategy, conforming approximation and efficient solvers
M. Ainsworth and B. Senior 65

hp Optimization of finite element approximations: Analysis of the optimal mesh sequences in one dimension
I. Babuška, T. Strouboulis and K. Copps 89

Numerical simulation of non-conventional wells using adaptive finite element analysis
M.P. Reddy, M.K. Deb, J.M. Bass and H. Ning 109

Local error estimation and adaptive remeshing scheme for least-squares mixed finite elements
G.F. Carey and A.I. Pehlivanov 125

PZ :An object oriented environment for scientific programming
P.R.B. Devloo 133

A posteriori error estimator and adaptive procedures for computation of shakedown and limit loads on pressure vessels
J.R.Q. Franco, J.T. Oden, A.R.S. Ponter and F.B. Barros 155

Inexact solvers on element interfaces for the *p* and *h-p* finite element method
B. Guo and W. Cao 173

An adaptive discontinuous Galerkin method for viscoplastic analysis
B. Fang, F.L. Carranza and R.B. Haber 191

On *hp*- error estimation in the BEM for a three-dimensional Helmholtz exterior problem
A. Karafiat 199

Preconditioning of the *p*-version of the finite element method
V.G. Korneev and S. Jensen 215

New advances on a posteriori error on constitutive relation in f.e. analysis
P. Ladevèze and Ph. Rougeot 239

ProPHLEX—An *hp*-adaptive finite element kernel for solving coupled systems of partial differential equations in computational mechanics
T.J. Liszka, W.W. Tworzydlo, J.M. Bass, S.K. Sharma, T.A. Westermann and B.B. Yavari 251

On boundary-hybrid finite element methods for the Laplace equation
J.M. Maubach and P.J. Rabier 273

A posteriori finite element bounds for linear-functional outputs of elliptic partial differential equations
M. Paraschivoiu, J. Peraire and A.T. Patera 289

Error control and mesh optimization for high-order finite element approximation of incompressible viscous flow
A.V. Ilin, B. Bagheri, R.W. Metcalfe and L. Ridgway Scott 313

Coupled model- and solution-adaptivity in the finite-element method
E. Stein and S. Ohnimus 327

Adaptive multilevel BEM for acoustic scattering
M. Maischak, P. Mund and E.P. Stephan 351

A posteriori estimation of the error in the recovered derivatives of the finite element solution
I. Babuška, T. Strouboulis and S.K. Gangaraj 369

Applications and numerical analysis of partial differential Volterra equations: A brief survey
S. Shaw and J.R. Whiteman 397

A posteriori error estimation—the relationship between different procedures
J.Z. Zhu 411
